

MY INTERESTS

I like to put together model airplane. To do a good job takes a lot of work. All the pieces are so tiny. But when I finished one, it looks super! Another thing I love to do is collecting stamps. I've been doing this for many years. My dad got me started. Right now I'm trying to have a complete set of stamp for Ireland. When I'm free, I spend my time listening to music. Not just rap songs, but all kinds of tune , jazz. classic music, and rap too. Maybe one day I'll be a musician. But even if I don't. I can still enjoy listening to someone else's music.

Comprehension Questions

1. What are his hobbies?
2. How did he begin collecting stamps?
3. What kind of music does he like?
