

My Family's Favorite School Subjects

Everybody in our family enjoys school a lot! My brother Tom likes to work with numbers. His best class is Math. My sister Veronica likes sports, so she enjoys Physical Education the most. My brother Alex loves to study plants, animals, and the weather. He gets excellent grades in Science.

My sister Janet likes to study different languages, so her favorite class is French. I really enjoy learning about the presidents, especially Abraham Lincoln. I do well in History. And my little sister Angie just started first grade. She doesn't know the alphabet very well, so she's having trouble with Spelling.

Questions

1. What's your favorite subject?
