

The World on Fire

In the dialogue below, Gary and Sharon are complaining about how hot the weather is today....

Gary: Oh my, It's really hot! I've never seen such scorching weather in my life!

Sharon: Tell me about it. It's like the whole world is on fire.

Gary: Oh, look at the thermometer! The temperature has hit 98!

Sharon: I hope it's not going to break into three digits!

Gary: But it's already awfully close!

Sharon: Well, I just hope it will level off.

Gary: I guess we can't do anything until after dark then.

Sharon: I guess so. What else can we do? You can't stay in the heat for long!

VOCABULARIES:

Scorching - too hot

Thermometer- an instrument for measuring temperature

Temperature- the degree of hotness or coldness of a body or environment

PRACTICE:

1. Have you been to a country with a very hot weather? Do like it? Why?
2. What is your most favorite season? Why?
3. What are the things you are fond of doing when it's your favorite season?
4. What do you think will happen to us if we only have one season in all parts of the world? Do you think we will survive? Why and how?
