

Why date Asian Women?

Just recently there was an article in the Chosun newspaper, entitled "What is it about Korean Women that Western Men Like?"

Now, I don't want to just put this on only Korean woman but you could easily change Korean women to Asian women, including Japanese, Thai, Filipino, and Chinese.

Anyway, the articles stated, "That Asian women are submissive and kind. They are known to make breakfast, lunch and dinner for their husbands, help their husbands well, and raise children well."

As a Western man married to an Asian woman, I can honestly say that Asian women are not submissive and that I haven't had breakfast in the last 3 years that I didn't cook for myself. However, I will say that I am very happy with my wife and that she is a good mother to our baby.

Questions for discussion:

1. Do you think that Asian women are different from Western women?
Why or Why not?
2. How is your mother different from your wife or yourself?
- 3.
4. Why do you think Asian men date Western women?
